

## FAVOURITE THINGS IN STORES

Chen Karlsson´s new pendant let you spread the light and tales of your favorite things.

Chen Karlsson is glad to announce that the pendant lamp "Favourite Things" is now available for retail in selected stores throughout Europe.

Favorite Things is a vitrine and pendant lamp combined; a product dedicated to highlight your souvenirs, objects d'art and personal trinkets. The main body consist of a round reflector and a transparent tank with an aperture in the side. Through the aperture you are invited to insert your selected objects – wether it would be porcelain figurines, your first baby shoes or memories of past holidays.

The idea of the design originates from a visit to the natural sciences museum in Stockholm, where a polar-bear was dramatically spotlighted inside a glass cabinet. The accentuated light source exposed the white creature dramatically. As the background faded into the darkness the setting very much reminded of an old italian painting.

*We, and our children, loved the effect of that particular cabinet. Instantly we started to think of how we could achieve something similar in a format more suitable for the home. Said and done, the idea to the Favorite Things pendant was born*

- Chen Karlsson designer Hung-Ming explains.

### Chen Karlsson: East-West Homeware

Chen Karlsson is a swedish company founded by the two families of Chen and Karlsson. Coming from two completely different cities – Chen Family from Taipei and Karlsson Family from Stockholm – the four of them met while studying design in Konstfack University, Sweden. Soon they came to realize the strong potential of a cross cultural collaboration. During the studies the partnership evolved into the joint venture Chen Karlsson AB.

Today Chen Karlsson headquarters in Stockholm and work closely with designers, craftsmen and manufactures in Scandinavia and Asia. Under the slogan "East-West Homeware" the company continue to mix eastern and western ideas and designs.
